

Nick and Jeannette took a huge group of people up to Rocky Mountain National Park on one of the most beautiful days I can remember riding. I think there were 20 to 25 motorcycles going up. So to make sure that no one would get separated, he broke us up into 2 groups. Once we got through Boulder and had a beautiful canyon ride we met the other larger group about 1/3 of the way up. We drove over the peak to peak highway as an awesome group. Nick and Jeannette sacrifice a lot to make sure that the folks in our Harley group have a safe and fun ride. They have taken a lot of very focused time just on me to make sure that I was safe and had fun. So Nick and Jeannette, Thank you for taking care of me, for making sure that I had people to talk to, and to make sure that I felt like part of our Harley family. I really appreciate all of the things you do for me and all of us.

Deb
